

# **Start-ing Do-ing Good-ing**

( Let's create together, act with vitality, do something good for society, with kindness)

The person who receives and uses the product. The person receiving the service.  
The person who wants solution.

We are always thinking about the people who receive the things, matters, and aspects that we create.

At the same time, thinking about the companionship we create together.

We have been supporting and activating people at work through environmental reforms centred on technology that manipulates wind, rotation, and flow.

From now on, we would like to further expand this field.

We hope that more "people" will take on challenges, have hope, and be physically and mentally fulfilled, so that the "society" created by gathering people together will be more active and fulfilling than it is now.

From environmental improvement solutions,  
to the marine industry, motorcycle racing, and beyond.  
Our next actions to create a great power to move society  
through the vitality of each individual has begun.

## **In April 2024, Showa Denki become "SDG".**

<b>Former Company Name</b>	<b>New Company Name</b>
SHOWA DENKI CO., LTD.	SDG CO., LTD.
